March. 14th, 1941

Mr. A. M. Manley,
101 Mountgomery Street,
Newark, N. J.

Dear Mr. Manley;-

I trust this letter will find you and Mrs. Manley both well and enjoying the very best of health. I was very glad to read in the Afro this week that you are still in the base ball world, I read an article sometime ago where I thought you were giving up baseball.

I am enclosing a schedule you can look over and see if there is any dates you want on you return from Florida enroute home.

If you are plaining on playing any games in N. C.

this year it will be very wise for you to make a survey in the eastern part of this state due to the Army Camps and Naval Base that is located at Fayetteville and in and around Willmington and I think from all indication a Saturday and Sunday game in that section will go over big and I am thinking it will be day games altho I am not certain as yet but I do know there is a pay day at Fayetteville every day except Sunday.

There is no boom here yet things I should say are just about normal and little more money in circulation than in previous Years. If you should past thru this section enroute to Florida drop me aline and stop by. My wife joins me in sending best regards to you and your Wife. Wishing you loads of luck for the season of 1941.

Very friendly yours,

E. B. Johnson
